Jan 2020

AVAILABLE EXCLUSIVELY THROUGH JNE Retail Equipment & Technibilt wanzl Company

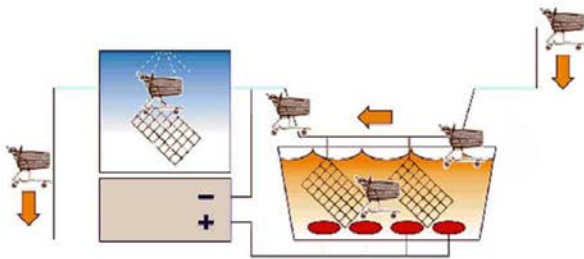

① Pretreatment

First line of defense against corrosion. Consists of cleaning, conditioning, phosphating and chromic rinse. Maximizes primer adhesion and eliminates underfilm corrosion. The key of the Tech-Seal process

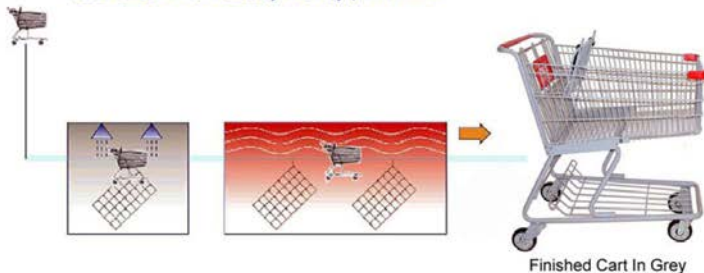

② Cathodic electrocoating

Four out of five cars in the world today are primed using the same technique. The cathodic process includes electrocoat, circulating system, rinsing cycle and curing oven. Electrocoating far exceeds chrome electro-plating for covering hard to reach places. Results in a tough, tightly sealed finish.

③ Top coating

An exclusive process that uses state-of-the-art technology. Finely ground powder is electrostatically applied, then baked to an attractive, easy-to-clean and environmentally friendly paint finish.

WHY CHOOSE A CART WITH TECH-SEAL FINISH?

Advantage: LEAD Free (CPSIA) Approved, Lab Report #225862

Advantage: TechSeal™ is Environmentally Friendly

Advantage: 3 Year Corrosion Guarantee

Advantage: Made in North America, Well Established, 30 Year Old Company

Advantage: Stocked in Calgary, AB Warehouse

Advantage: Rigid "Built to Last" Structure

Advantage: Replacement Parts Available direct from JNE Retail Equipment Inc., in Calgary, AB

***Tech-Seal™** "The Best Finish in the Industry", is a trademarked, revolutionary finish Only available through JNE Retail Equipment Inc. This breakthrough in technology results in an attractive, long-lasting, easy-to-clean finish that is virtually corrosion resistant. The Tech-Seal™ coating is done as a 3 Stage process: A *Pretreatment*, for cleaning and conditioning the metal; a *Cathodic Electrocoating*, for a tough corrosion resistant epoxy resin primer; and a final *Top Coating*, for a smooth, durable Polyester and Teflon coated finish.

Disclaimer: All specifications are approximate. Manufacturers Specs are subject to change. Colours not exactly as shown.

***Tech-Seal™** "The Best Finish in the Industry", is a trademarked, revolutionary finish Only available through JNE Retail Equipment Inc. This breakthrough in technology results in an attractive, long-lasting, easy-to-clean finish that is virtually corrosion resistant. The Tech-Seal™ coating is done as a 3 Stage process:

A *Pretreatment*, for cleaning and conditioning the metal; a *Cathodic Electrocoating*, for a tough corrosion resistant epoxy resin primer; and a final *Top Coating*, for a smooth, durable Polyester and Teflon coated finish.

Exclusive to Technibilt/Cari-All Shopping Carts

Features

Steel tubular bearing

The tempered steel zinc plated tubular ball-bearings are inserts molded directly into the high impact polypropylene hub of the Sof-Runner™ wheel, completely eliminating shaking so common to shopping cart wheels.

Tread guards

Seals and protects ball-bearings from foreign objects and increases life of hub assembly.

Polypropylene hub

The polypropylene hub design incorporates a curved slope to provide improved resistance to side impact thrusts.

Polyurethane tread

The unique polyurethane tread is mechanically bonded to a high impact polypropylene hub which eliminates tread separation. The tread offers superior abrasion properties ensuring maximum durability.

- 5 Year Warranty
- High Load Capacity
- Will not Chip, Crack or become Brittle
- Tempered Steel Precision Ball Bearing
- Thread Guards to Seal & Protect Ball Bearings
- Resistant to Grease, Oil & Most Chemicals
- Reduce Maintenance Costs by 50%
- Non Marking
- Quiet Operation

Customers Expect Smooth Operating Carts

JNE Retail Exceptional Sof-Runner Wheel helps move the Cart with Ease, and presents the Customer with smoothness of running with minimal noise generation on all surfaces.

The Sof-runner Wheel is the ultimate Luxury Wheel that carries a five year Warranty, that is pro-rated 20% per year against normal wear and tear. Warranty does not apply if the wheel is damaged as a result of improper use or flat-spotting caused from dragging the wheels.

Disclaimer: All dimensions are approximate. Manufacturers Specs are subject to change. Colours not exactly as shown.

Fits All our Shopping Carts & Kids Shuttles

610-PH-WC2054LD-CAS-1 - P&H FRONT
Swivel CASTER cw 5" Wheel & 1/2" locknut

610-PH-WC2054LD-1 - P&H Wheel Rear
5" Shopping Cart Wheel with Axle Kit

Features

Wheel

High quality polyurethane with a high impact polypropylene hub. It has a patented Precision X bearing system.

Yoke YZ30C1542

Grease seal on both races; Kingpin with locking keys; Nylon insert nut; Case hardened metal components.

Bearing

Dual Quad X Precision bearing.

- Diameter - 5"
- Tread Width - 1.25"
- Hub Width - 1.6"
- Load Capability - 250 lbs
- Weight - .6 lbs
- Hardness (durometer) - A98
- Bearing - Dual QuadX
- Bore - 5/16"
- Threadguard - Yes
- Operating Temperature - -34° C to 60° C

Designed to Fit A Range of Applications

The P&H front swivel shopping cart caster was designed to fit all of the standard shopping cart models. This reliable and durable shopping cart caster has been the product of choice for the major retailers and OEM's for the past decade.

The TPU (thermopolyurethane) wheels ride well on a variety of flooring and ground surfacing materials and absorb impact while providing stability. The zinc plated steel yoke features a patented precision bearing with a rust resistant shaft.

Loss Prevention and Cart Containment Solutions

643-GKSMARTWH2.0 - Smart Wheel 2.0 QS with Swivel Caster for Gatekeeper Cart Containment System

SPECS

Power Source - Proprietary Gatekeeper Systems' Battery

Dimensions - 5" Diameter, 1.25" (3.18cm) Width

Signal Output - Low Frequency - 8kHz

- High Frequency - Operates in the 2.4GHz band

Microprocessor - Digital circuitry, factory-programmed and compliant with international regulations

Battery Life - 5 year warranty

Environmental - Operating temperature range: -25° C to 60° C

Load Rating - 300 pounds (136.07 kg)

Features

Fully enclosed wheel

The industry's only completely sealed locking wheel. The more robust enclosure increases weatherproofing and eliminates potential of improper wheel servicing.

Replaceable tread

Quick service tread makes replacement easier and faster than ever before.

Advanced technology

Works with multiple solutions including CartControl cart containment and purchase loss prevention.

Internal locking components

Jamming from debris, snow or tampering is severely minimized. No opportunities to jam or defeat an external braking mechanism.

Locking and unlocking capabilities

Optional unlock field allows customers to simply pull the cart backwards and the wheel rolls freely again. Separate lock and unlock fields prevent thieves from pushing carts off property when in unlocked state.

Install on front or rear of carts

The Smart Wheel 2.0 can be installed on any position of the cart. Express cart should only be installed on the rear.

Totally wireless reset

Escape the hassle of lifting up your cart to reset the system. No touching the wheel, ever.

**Additional
Unlocking Key

- Steel skid plate
- Auto locking system with manual reset

**Cartrronics Wireless
Reset Key Available**

How It Works

Cartrronics CAPS system consists of a small gauge antenna wire placed in a narrow saw-cut around the perimeter of a site, plus one electronic locking caster on each cart. The ends of the antenna wire are connected to a small electronic signal transmitter in the building which sends a continuous lock signal around the perimeter. When someone tries to remove a cart from the site, the caster locks to disable the cart, where it remains until it is reset with Cartrronics hand-held reset controller.

***Tech-Seal™** "The Best Finish in the Industry", is a trademarked, revolutionary finish Only available through JNE Retail Equipment Inc. This breakthrough in technology results in an attractive, long-lasting, easy-to-clean finish that is virtually corrosion resistant. The Tech-Seal™ coating is done as a 3 Stage process: A *Pretreatment*, for cleaning and conditioning the metal; a *Cathodic Electrocoating*, for a tough corrosion resistant epoxy resin primer; and a final *Top Coating*, for a smooth, durable Polyester and Teflon coated finish.

***Tech-Seal™** "The Best Finish in the Industry", is a trademarked, revolutionary finish Only available through JNE Retail Equipment Inc. This breakthrough in technology results in an attractive, long-lasting, easy-to-clean finish that is virtually corrosion resistant. The Tech-Seal™ coating is done as a 3 Stage process: A *Pretreatment*, for cleaning and conditioning the metal; a *Cathodic Electrocoating*, for a tough corrosion resistant epoxy resin primer; and a final *Top Coating*, for a smooth, durable Polyester and Teflon coated finish.

SSB Floor Bumper Rail and CB Floor Bumpers Protects Walls, Cases and Fixtures

SSB Floor Bumper Rail

The SSB is a removable floor mounted bumper rail which protects fixtures, cases and walls from impact damage caused by shopping carts, pallet jacks and stocking carts.

The SSB has a small footprint allowing installation close to fixtures. The SSB installs easily using floor sockets.

Individual sections can be joined to create seamless runs along walls or refrigeration aisles.

90° and 135° degree corners are an available option.

CB FIXED Floor Bumper

Absorbs Impacts from shopping carts being returned to Corral.

The Heavy Duty CB Spring Action Steel Bumper System is the Preferred choice for Corrals and other High Impact case and wall protection applications

SPECIFICATIONS

CONFIGURATIONS

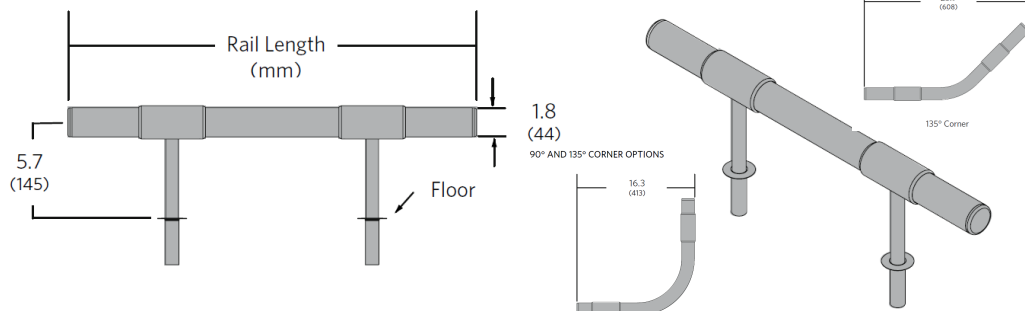

The SSB is available in individual sections from 1' to 12'. Individual sections can be joined to create longer runs as required by the application.

MATERIALS AND FINISHES

The SSB is all stainless steel. The horizontal face is 1.75"OD, 16-gauge tubing. The foot is a welded Assembly consisting of a 4" piece of tubing with beveled edges welded to .75 OD stainless steel rod.

The stem of the assembly installs into a stainless steel floor socket. End caps are ribbed, press fit polyethylene. Set screws hidden from view hold the horizontal tube securely in place.

The SSB has a #4 satin finish.

Disclaimer: All specifications are approximate. Manufacturers Specs are subject to change. Colours not exactly as shown.
